

NHSE - SW Study Leave Course List

August 2025 to July 2026

Last Updated: Jul 2025

Next Review: August 2026

Overview

The Specialty Head of School and/or education faculty will have provided NHS England SW with a list of courses suitable to attend. The list is an aid for postgraduate doctors in training to identify the most appropriate time to attend courses during their programme.

Courses may be accessed at certain points throughout a PG DiT's training. If the course has been identified over multiple years, you may only attend the course once, unless specified in the notes.

Courses are split into three categories. Each category determines the level of funding you will receive from the study leave budget.

Category	Rationale of category	Extra Information	Funding	Cavets
1	Required within the curriculum and unable to achieve competences through their training programme or regional teaching.	None	Fully Funded	Course must be on the list below at the start of the academic year.
2	Enhanced knowledge – not recognised as a requirement for the postgraduate doctor in training curriculum, however activities will help the PG DiT complete parts of the curriculum	It is expected that those applying for these courses will have met their core curriculum competencies for their stage of training.	Fully Funded	Course must be on the list below at the start of the academic year.
3	Career Progression - these courses should only be required at the latter stage of training.	These courses will only be approved for funding if the postgraduate doctor in training has achieved their core curriculum competencies for their stage of training and it is on their PDP.	50% funded	Courses not on the course list may be approved by the employing Trusts (if under £1000) subject to TPD approval and the course is on the Postgraduate doctors in training PDP.
Other	Courses which have limitations put on them in regards to funding.	Information for these courses can be found in the NHSE SW Study Leave Guidance	Other	Funding will be in line with the Study Leave Guidance.

Please note before any funding can be applied, you must follow the correct application procedure in line with your trust and NHSE SW Study Leave Policies.

Without following the correct procedure your funding will not be approved.

For more information, please read through both policies.
